**EuroCv Author**

EuroCv - Show your knowledge and your working strength all over the world

Summary

The project is based on a service supplied by means of the Website [www.eurocv.it](http://www.eurocv.it). It helps people creating a Curriculum Vitae, in the European format, in order to share it with European Companies.

The project is divided into several sections each one dealing with the various aspects of a Curriculum Vitae. The main section allows to fill in a form with personal data of anybody looking for a job.

The other sections allow the user to face job demands using sharing tools. The European Curriculum Vitae furnished, equipped with presentation letter, can be translated by the user in several languages.

Vision - objectives - goals

The main goal of the project is to contribute with European free Curricula to reduce the economic and social division existing in Europe.

A free Website only dealing with Curricula and nothing else. Neither advertisements nor spamming by emails. The idea is to simplify the processes related to job demands and offers. The person looking for a job, who normally is the weak part in the job search, will be able to present himself all over the world and, on the other hand, the Companies will be able to find the right profile simply looking for the best Curriculum Vitae in a worldwide database of Curricula.
